A GREAT LOSS OF A ONE OF A KIND

Bailey 2000-2013

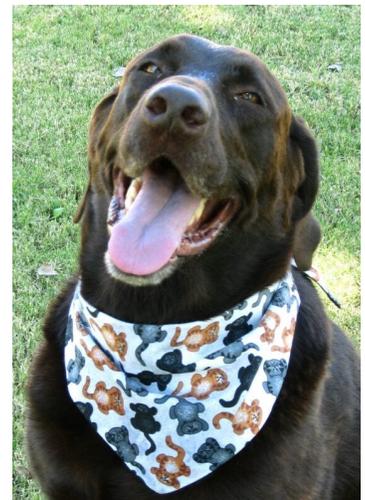

Anyone who has ever adopted an animal from Morning Starr has probably met Bailey the Chocolate Lab. He came to the sanctuary approximately 11 1/2 years ago. His story was sad and filled with abuse from the time he was 6 weeks old until he came to Morning Starr. He represented Morning Starr on all our adoption days at Petsmart in Prescott, all our events and anywhere we went. He was willing to help any

animal that Morning Starr took in to adjust, he was the welcoming committee. He loved any animal from horses, ferrets, calves, rabbits to day old kittens and puppies. He was very devoted to me and never left my side usually noticed by people who visited or when we were out. People always called him my shadow.

He was the dog in the video on YouTube of Emma the calf who was sucking on Baileys ear and he just let her because that was the way he was with all animals that came into Morning Starr. He loved the water and went with us to the beaches of San Diego and the streams of Colorado. He was a great traveler. I miss you Bailey and it will take a long time for me to stop being sad that you are not with me but I know you are happy and healthy again over the rainbow. No more aches and pains and no more pills.

Bailey never sat on the floor, no he had to sit with me on the bench. That was his way!

MAY AND JUNE ARE MICROCHIPPING DISCOUNT MONTHS

At Certain Times You Wish Your Pet Could Talk

For the months of May and June we are offering Microchips for you pets for only \$15.00! What, that is **crazy**, so **cheap**! Yes, it is because we know that summer is around the corner and pet owners will be traveling with their pets, playing outdoors more, visiting dog parks and STUFF HAPPENS! We want every pet to be safe and be able to return to the owner as soon as possible. The only way you can ensure that this happens is to Microchip them. Dogs and cats by their very nature have characteristics that make wondering common. Both are highly curious by nature.

Even though family pets cannot talk you have the power to provide a silent voice to your best friend by Microchipping them.

Collars and tags are good but both collars and tags may be removed or get lost.

It only cost \$15.00 and there is no annual fee. When we implant the microchip in your pet it automatically includes registration into the PetLink Database for the life of your pet.

PetLink gives you real peace of mind. Thanks to PetLink registration and reunification system thousands of pets are reunited with their owners each year.

We can microchip your pet at our spay neuter clinic during regular office hours which is Monday to Friday 8-12 noon.

You must book an appointment
so call us at 928-821-2420
and get your pet safe today!

WANTED FULL/PART TIME

Vet Tech, preferably certified, but not necessary. If you have experience with prepping animals for surgery, anesthesia machines, giving vaccinations and working as a team, we would love for you to join us. We need a Vet Tech who is looking to work 2 times a month at our spay neuter clinic. Easy days! We are not your average spay neuter clinic and we don't stuff our days but instead try to do 2 clinics a month. We like to give individual attention to the animals that come to our clinic. If you are willing to volunteer, that would be great! If you are looking to earn a little extra money on your day off we can talk about paying for the days worked. No weekends!

Come visit our clinic at 257 Justin Dr. suite A in Cottonwood. Please call first if you would like to have an interview. You can send your resume to us as well to the address above or drop it off at the clinic in the mail box by the front door which is locked and secure.

Please contact us at 928-821-2420 or fax 928-634-2800

Wanted

Veterinarian in the area who would like to help one to two times a month with spay days or just with shot clinics. Volunteering is great but pay is negotiable. Please contact us to talk about it and have a meeting.

Tel. 928-821-2420 .

This beautiful, loving boy was born September 2007. Ulysses is a love bug and a really wonderful dog. He is neutered, microchipped, current on shots. He's 65 pounds with a mellow disposition and is affectionate, confident, and gentle. He has been very well cared for and socialized. He's loving and playful, good in the car, good with kids and other dogs, faithful and loyal. He does not get on furniture and likes being brushed. He gets very happy around toys. We're not sure yet how he is with cats.
